CORRIGENDUM

It is regretted that in the previous article from the Statens Serum Institut, Copenhagen (by A. Reyn and M. W. Bentzon (*Brit. J. vener. Dis.*, 1958, **34**, 169)), the two figures on pages 172 and 173 do not correspond to the captions. The figure on p. 172 refers to *chronic* type syphilitic sera and should be numbered Fig. 2, and that on p. 173 refers to *acute* type syphilitic sera and should be numbered Fig. 1.
