ANNOUNCEMENT

A special international award, to consist of a bronze medal and a scroll, is planned to honour outstanding workers in the field of the venereal diseases and non-venereal treponematoses. Provided sufficient funds can be collected to guarantee an annual award out of interest on a special fund, this award will be administered by the World Health Organization, in a manner similar to WHO's administration of the Darling Award for outstanding achievements in malaria control.

Since this is to be an international award, funds are

being sought from interested persons and organizations throughout the world. Individuals and organizations in the United Kingdom are invited to contribute towards the establishment of this special fund. Cheques should be made payable to "The International Treponematoses Award Fund", and sent to the temporary custodian of funds collected in the United Kingdom: Dr. R. R. Willcox, St. Mary's Hospital, London, W.2.

The temporary custodian of funds collected in the United States is Dr. Frank W. Reynolds, The Saratoga Spa, Saratoga Springs, N.Y.
