GIFT OF BOOKS TO FOUND A LIBRARY FOR THE MSSVD

The Council of the Medical Society for the Study of Venereal Diseases have accepted a most generous gift to the Society from Mrs Lilian Johnston Abraham of books from the library of her husband, the late James Johnston Abraham, C.B.E., D.S.O., M.D., F.R.C.S., of whom an appreciation appears on page 148 in the June issue of the Journal. The name of James Johnston Abraham will be familiar to us as that of a man with a most charming and genial personality who was a distinguished consultant and author, Managing Director of William Heinemann’s Medical Books Ltd., Senior Surgeon to the London Lock Hospital, and an outstanding war-time administrator. We, and also the other workers

who will follow us in this field, will be reminded of his name by this generous gift of books which it is hoped will form the nucleus of a special library for the Society.

The books, which are listed below, will meanwhile be kept at the Whitechapel Clinic of the London Hospital where they will be available to members for reference; Dr E. M. C. Dunlop is the Librarian. The Council of the MSSVD hopes that other members may add to this nucleus, and perhaps in due course this library may come to serve an Institute of Venereology. This would indeed please James Johnston Abraham who fought so hard to prevent the closure of the London Lock Hospital.
