Dr Sulzberger

Dr Ramos e Silva

Prof. Kitamura

Dr Mitchell-Heggs

Prof. Flarer

Prof. Jablonska

Dr Brunsting

Prof. Sagher

Prof. Hellerström

Prof. Quiroga

The maximum time accorded to presentations will be 20 minutes for speakers and 10 minutes for discussions.

CLINICAL CASES

Clinical cases will be presented in colour television with the help of CIBA of Basle.

FILMS

Should there not be enough new and original dermatological films of highest quality to fill the three hours allocated, Dr Sulzberger suggests that other films of interest to dermatologists, such as the effects of laser beams on the skin, should be presented.

Further particulars may be obtained from The Secretary-General, Prof. Sven Hellerström, Karolinska Sjukhuset, Stockholm, Sweden.
