## Contents

### Editorial

129  What is EBM?

### Methods

131  Impact of facilitating physician access to relevant medical literature on outcomes of hospitalised internal medicine patients: a randomised controlled trial

### Prognosis

136  Thrombolysis improves 90-day functional outcome in acute ischaemic stroke, even in very older people

### Therapeutics

138  Cardiac resynchronisation therapy is efficacious in patients with mild heart failure symptoms

139  Oral rivaroxaban for acute DVT, or long term for VTE, is as effective as enoxaparin followed by a vitamin K antagonist for preventing recurrence, with no increase in bleeding complications

141  *Lactobacillus rhamnosus* GG reduces frequency and severity of abdominal pain compared with placebo in children with irritable bowel syndrome

142  NSAID use associated with increased cardiovascular risk and death, but naproxen appears to be the least harmful

143  α-blockers and antibiotics, alone or in combination, improve symptoms in men with chronic prostatitis/chronic pelvic pain syndrome

144  Addition of omeprazole to dual antiplatelet therapy with clopidogrel plus aspirin lowers the risk of upper gastrointestinal bleeding

146  Oral antiretroviral pre-exposure prophylaxis reduces the risk of HIV acquisition among men who have sex with men

147  CBT stress management reduces recurrent CAD events after myocardial infarction

148  Initial treatment of hypertension with aliskiren and amlopidine combination gives 6.5 mm Hg greater reduction in systolic BP than does either monotherapy

150  Amoxicillin-clavulanate improves symptoms, reduces treatment failure in select children with acute otitis media and increases risk of diarrhoea

152  PREDIMED trial: Mediterranean diet may reduce the risk of type 2 diabetes

153  Vitamin D supplementation of deficient children may improve bone mineral density

154  Training birth attendants in rural Zambia in neonatal resuscitation, and the use of amoxicillin coupled with facilitated referral, reduces neonatal mortality

156  Two weeks of rifaximin relieves global symptoms and bloating in people with IBS without constipation

157  The quadrivalent HPV vaccine is effective prophylaxis against HPV-related external genital lesions in young men

159  Escitalopram reduced hot flashes in non-depressed perimenopausal and postmenopausal women
