Vacancy: Editor-In-Chief

Sexually Transmitted Infections

BMJ seeks an Editor-in-Chief with a vision for the journal to provide engaging and informed content and build the journal's international reputation and profile.

This individual should have stature in the field of sexual health, a distinguished publication record, and experience of working in an editorial role for an academic journal. Editorial support and training will be provided, as well as an annual honorarium. The Editor should expect to spend up to a day a week on journal-related activities.

Joint applications will be considered from two or more individuals willing to act as a team to focus on the professional and academic aspects of the journal. Applicants need not be based in the UK and international applicants (or joint applicants based in different countries) are encouraged.

The closing date is 19th August 2018. For a full role description and information about the application process, please visit sti.bmj.com.
